

SmSC

What is it?

Spiritual development involves- the growth of their sense of self, their unique potential, their understanding of their strengths and weaknesses, and their willingness to achieve. As their curiosity about themselves and their place in the world increases, they try to answer for themselves some of life's fundamental questions.

Moral development -Involves them acquiring an understanding of the difference between right and wrong of moral conflict, a concern for others. The will to do what is right.

Social development involves pupils acquiring an understanding of the responsibilities and rights of being members of families and communities. An ability to relate to others. To work with others for the common good.

Cultural development involves pupils acquiring an understanding of cultural traditions and the ability to appreciate and respond to a variety of aesthetic experiences. They acquire a respect for their own culture and that of others, an interest in others' ways of doing things and curiosity about differences.
